

SPECIAL FACULTY PERMITS

WHAT IS A SPECIAL FACULTY PERMIT?

- A California Special Faculty Permit (SFP) is a license exemption for a physician and surgeon who possesses 1) a current valid license in another state, country, or jurisdiction; 2) does not qualify for a California license but is academically eminent or clearly outstanding in their specialty; 3) has been recruited by a California medical school as a tenured faculty (academically eminent), or a full professor or assistant professor (clearly outstanding) and the medical school has a great need to fill that position.
- The SFP only allows the permit holder to practice medicine in California at the sponsoring medical school and/or a formally affiliated hospital(s) the Board has approved.

SPECIAL FACULTY PERMIT REVIEW COMMITTEE (SFPRC)

- Medical Board of California Members:
 - One Physician Member.
 - One Public Member.
- School Members:
 - One representative from each California Medical School.
- SFPRC meetings are scheduled quarterly. However, the SFPRC only meets if the Board has a completed application to review.
- The SFPRC makes a recommendation to the Board regarding the SFP applicant.
- The Chair of the SFPRC presents the SFPRC's recommendation to the Board at next quarterly meeting.

SFP APPLICATION PROCESS

- A California medical school has identified a need for a faculty member with specific specialty skills to teach the school's medical school students, residents, fellows and to provide medical care to patients who are in need of these specialized skills.
- The medical school conducts a national or worldwide search for the physician with the expertise the medical school needs in the identified specialty.
- The medical school identifies a physician who does not qualify for a California license. However, the identified physician possesses a current valid license to practice medicine issued by another, state, country or other jurisdiction, and the medical school has determined the physician is academically eminent or clearly outstanding in a specific field of medicine or surgery.

SFP APPLICATION PROCESS

- The medical school and the identified physician submit an application, the application fees, Live Scan form or Board/CA-DOJ approved fingerprint cards, and all of the required documents to the Board.
- After the Board determines the SFP application is complete (with the exception of the appropriate U.S. Visa and Social Security Number), the SFP applicant will be presented to the SFPRC at its next scheduled meeting.
- At the SFPRC meeting the sponsoring medical school SFPRC Member will present the applicant to the other SFPRC Members.
- The SFPRC will make a decision on whether to recommend the applicant to the Board for an SFP.

SFP APPLICATION PROCESS

- The SFPRC Chair will present the SFPRC's recommendation at the next Board meeting.
- The Board Members make the final decision.
- The sponsoring medical school and SFP applicant are notified of the Board's decision.
- If the Board approved the applicant for an SFP, staff will issue the SFP once the Board receives a copy of the appropriate U.S. Visa and Social Security Number and license fee.

SFP RENEWAL PROCESS

- The SFP expires and becomes invalid at midnight on the last day of the permit holder's birth month during the second year of a two-year term, if not renewed.
- The Board sends the SFP holder a renewal notice 90 days prior to the expiration date.
- The SFP holder must complete the renewal, pay the renewal fees and the Dean of the sponsoring medical school must attest to the fact the SFP holder still meets the requirements to hold a renewed and current SFP.

SFP RENEWAL PROCESS

(a) A special faculty permit authorizes the holder to practice medicine only within the medical school itself and any affiliated institution in which the permit holder is providing instruction as part of the medical school's educational program and for which the medical school has assumed direct responsibility. The holder of a special faculty permit shall not engage in the practice of medicine except as provided above.

(b) Time spent in a faculty position under a special faculty permit shall not be counted toward the postgraduate training required for licensure and shall not qualify the holder of the permit for waiver of any written examination required for licensure.

(c) The medical school shall not appoint the holder of a special faculty permit to a position as a division chief or head of a department without express written authorization from the division.
